

# *Aging Wisely*™

Comprehensive Care Management and Consultation

## **Save Money with a Personalized Medicare Analysis Package...**

Medicare is not cheap...between deductibles and co-pays (especially if unexpected costs arise because you don't fully understand your coverage) paying for your healthcare in retirement can take a big chunk of your income. You simply cannot afford to make the wrong decision about your Medicare benefits. *Aging Wisely* offers the perfect solution—a **Medicare Analysis Package** conducted by one of our expert care managers.

You don't have to spend hours trying to find and review all your options – we do the work for you, researching available plans to provide you with the specifics about the plans most likely to meet your needs. We put all of the research into an easy-to-use, comprehensive report that the care manager will review with you. We do not sell insurance, so you get unbiased information based on our expertise and years of experience in the healthcare field and working with Medicare beneficiaries.

Here are just a few of the questions we ensure you understand:

- Is my choice of doctors limited? (Even plans that say they don't require you to work within a network may really be limited if doctors choose not to accept the plan/rates.)
- If I need rehabilitation/nursing home care will I be limited to certain facilities?
- What are my estimated overall costs and potentially large costs I might incur?
- How do my different coverages work together (i.e. employer plan, VA, the various parts of Medicare & supplements)?
- How and when can I make changes and what exceptions are there if I am dissatisfied or feel I did not properly understand what was sold to me?

We will:

- Work with you to understand your specific situation, including your healthcare requirements, doctors you see, prescriptions you take and your financial situation.
- Prepare a detailed report that outlines the plans in your area most likely to meet your needs.
- Answer any questions you have and support you during the enrollment process.
- Serve as resource to turn to should your Medicare needs change in the future.

**Let us take the confusion out of your Medicare and healthcare options! Contact us today at 727-447-5845 to learn more or schedule a Medicare Analysis for you or your loved one.**
