

## **Medicare Analysis Package**

**Are you preparing to retire and need help understanding all of the parts of Medicare and what you need to do?**

**Do you want to make the best Medicare/health insurance choices for your needs?**

**Are you overwhelmed trying to wade through all the Medicare information online and don't want to be sold something that's wrong for you?**

**Do you feel your loved one may be in the wrong Medicare programs or may be eligible for some additional benefits?**

Aging Wisely offers the perfect solution—a Medicare Analysis Package conducted by one of our expert care managers. We do not sell insurance, so you get unbiased information based on our expertise and years of experience in the healthcare field and working with Medicare beneficiaries.

What do we do?

1. We start by asking you for information on your personal situation, need and priorities so we understand what is most important to you, and we conduct a quick phone meeting to confirm and ask other questions to lead us to the best analysis.
2. We do in depth research on your options and help you narrow down your choices.
3. We meet with you and review the Medicare program (and other health insurance options/benefits) in general and the specific options we think are your top choices.
4. We answer your questions and explain the process for you to review your choices and make your final decisions, as well as how and when to take next steps.

**Let us take the confusion out of your Medicare and healthcare options! Contact us today at 727-447-5845 to learn more or schedule a Medicare Analysis for you or your loved one.**
