

Personal Consultation

We analyze safety needs based on an environmental assessment (evacuation and home's readiness) and your personal/health situation. We analyze facility and care provider disaster plans also, so you understand any concerns.

Report & Analysis

After our assessment, you'll receive a personalized safety plan. We recommend all the supplies you need to put together your hurricane kit and suggest alternative arrangements and support services.

Advice & Resources

You can always count on us to support you with an array of resources and answers to any questions. Most importantly, we help you anticipate problems and find solutions.

Aging Wisely Care Managers share our expertise in the specialty area of planning for elders and those with special needs to create a realistic plan that helps minimize risks for those most vulnerable.

Be Prepared to Weather Storm Season

Our analysis helps you understand:

- How support services you rely on (home health, medical equipment) may be affected by storms
- What life's really like after the storm
- Why special needs shelters serve as a last resort, not a plan
- How to put together the right supply kits for evacuating, alternative arrangements or weathering the storm at home (plus dealing with medications, medical equipment and more)

Our plan provides the solutions you need!

Also available:

- Optional pet planning
- Personalized plan for clients residing in care facilities

DISTINCTLY DIFFERENT, REAL SOLUTIONS FOR SAFETY

No checklist can help you anticipate things the way our experts can.
